Databases: PostgreSQL, MongoDB
Developer Tools: VS Code, Postman, Docker, Kubernetes, Cursor, Ansible, Git
Cloud & DevOps: AWS, Cloudflare Workers, GCP
Other: JWT, OAuth, GenAI,

EDUCATION

MET Institute of Technology Nashik, Maharashtra
Bachelor of Technology in Computer Science and Design *Sept. 2023 – Present*

- **CGPA:** 7.0/10
- **Coursework:** Computer Architecture, Data Structures and Algorithms, Database Management System

Daksh Gurukul IIT Guwahati Nashik, Maharashtra
Advanced certification in DevOps and Cloud Computing *Nov. 2025 – Present*

- **CGPA:** 7.0/10
- **Coursework:** Linux, Git, AWS, Docker, Kubernetes

EXPERIENCE

Software Developer Intern March 2025 – July 2025
Acrylic Solutions Pvt. Ltd. *Nashik, Maharashtra*

- Built a web application to simplify government form submission for rural users using React, TypeScript, Node.js, Express.js, and Socket.io
- Integrated with official government websites and implemented MongoDB databases for efficient data storage and retrieval
- Designed a user-friendly interface to improve accessibility, adoption, and reduce errors in form submissions

PROJECTS

SpendSense- AI-powered Expense Tracker | *MongoDB, Express.js, React.js, Node.js, TailwindCSS* Oct 2025

- Developed a full-stack expense management app with CRUD operations, search & category filters, and data export (CSV/PDF)
- Implemented JWT authentication for secure user access and integrated Recharts analytics dashboard for insightful expense tracking
- GitHub: github.com/Acesoham/spendsense | Live: spendsense-sand.vercel.app

CabBook: AI-Powered Cab Booking System | *TypeScript, React, Node.js, Express.js, MongoDB* June 2025

- Developed a full-stack MERN web application that allows users to book rides, track cab history, and monitor trip expenses in real time.
- Implemented secure authentication using JWT and Google Sign-In with optimized role-based access for passengers and drivers
- GitHub: github.com/Acesoham/cabbook

LEADERSHIP

- Served as Program Coordinator for departmental events, managing schedules, logistics, and team coordination
- Led cross-functional teams for successful execution of college and departmental programs, enhancing student engagement
